| Description               | The ICE West Texas Intermediate (WTI) Light Sweet Crude Oil Futures Contract offers participants the opportunity to trade one of the world's most liquid oil commodities in an electronic marketplace. The contract not only brings the benefits of electronic trading a US light sweet crude marker, but also brings together the world's most significant crude benchmarks on a single exchange: Brent, (Platts) Dubai, and WTI, as well as the emerging benchmarks Murban and Midland WTI AGC. This offers a reduction in collateral requirements through the offsetting of margins. |
