### Cotton Futures Daily Price Limit Expands to 4 Cents Per Pound

Effective with the start of trading for Friday, December 1, 2023, the Daily Price Limit for all Cotton No. 2 futures contract delivery months subject to a limit will expand to 4 cents per pound (400 points) above and below the prior day Settlement Price for the respective delivery month.

The Daily Price Limit is consistent with Cotton No. 2 Rule 10.09, which provides for an Initial Price Limit ("IPL") based on the absolute price level of the determining futures delivery month, and for a 1 cent expansion of that IPL on the trading day following any day on which two or more of the first five delivery months (or the sole remaining delivery month in a crop year) close at limit bid or offer based on the IPL then in effect.

In accordance with that Rule, the IPL is now 4 cents per pound based on the settlement price of the March 2024 contract today. Since no contract month closed at the IPL level in effect today, the 1 cent additional expansion of the IPL is not triggered - resulting in the 4 cent Daily Price Limit for trading tomorrow.
